## SUMMARY

Senior Software Engineer with 8+ years of experience building scalable web and mobile applications, specializing in NodeJs, ReactJs, and React Native. I enjoy solving real-world problems, with an agile mindset, writing maintainable code, and contributing to high-impact products.

I have a diverse background working on projects ranging from social media with a financial twist to crypto fintech solutions, always with a focus on scalability, performance, and user experience. I thrive in collaborative environments and am always looking to grow, learn and help drive long-term product success.
